

**DYNAMIC POSITIONING TECH SDN BHD**  
(974310-X)

**DYNAMIC POSITIONING CONSULTANCY AND MANAGEMENT**

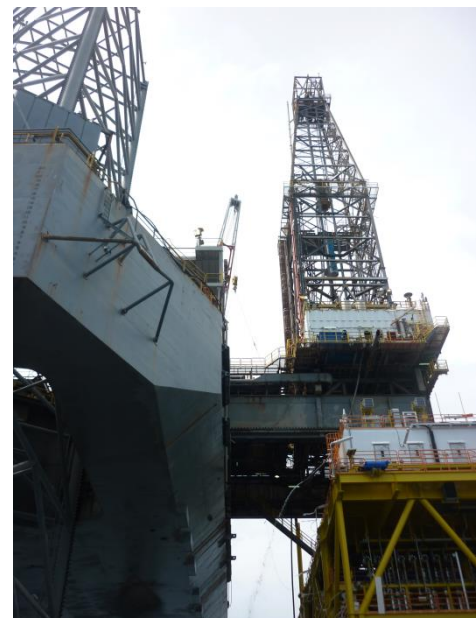

## MISSION STATEMENT

To be the market leader, which consistently exceeds Customer expectations and provides the best innovative solutions, through open communication and the latest technological breakthroughs, in the fields of Dynamic Positioning Consultancy, Services and Training

## OUR SERVICES

We specialise in providing unique and innovative, Dynamic Positioning related solutions in the following areas:

- **Consultancy**
  - **Guidelines from IMCA, IMO and MTS**
    - ♦ The principal industrial bodies that have contributed much to the growth, understanding and development of Dynamic Positioning is well incorporated in our systems and management
  - **Charter requirements and suitability**
    - ♦ Does the DP vessel have what is necessary for the Operation? We definitely know what is needed. Our professional services reduces downtime, risks and eliminates surprises for our Clients, while increasing competence, confidence, safety and reliability
  - **Upgrading and Modifications**
    - ♦ Part of a vessel's Evolution to suit operational and commercial needs, requires proper analysis and implementation, to get the most out of an investment
  - **New buildings**
    - ♦ Vessels are complex, unique and sophisticated machines. The decisions made in the planning and conceptual stage are very important in deciding the operational characteristics, capability and value of the asset to Clients and Charterers; including Conversion Projects
  - **Change Management**
    - ♦ Appraise, Plan, Execute and Monitor; the key phases in ensuring Management of DP systems and practices are adding value, increasing safety and reliability
  - **Projects**
    - ♦ Consultancy to Clients on the many aspects of DP on a Project basis

- **Remote shore support**

- 24/7 Call Centre Support
  - ♦ We are not far away, we are here to support DPOs when help is needed
- DP Incident and Crisis Management
  - ♦ Proper troubleshooting and Root Cause Investigation will save time, money and provide better information in making decisive decisions

- **Risk Analysis and Assessment**

- Oil Field/Work Location DP HSE
  - ♦ We assess the capabilities, infrastructure and support systems within the Oil Field or site, to perform Safe and Efficient DP Operations. Risks to offshore assets having vessels in very close proximity require clear procedures, definition and control. How safe is the operation performed and is it within the vessel's capability?
- FMEA, FMECA
  - ♦ Failure Mode and Effects Analysis surveys
  - ♦ Failure Mode, Effects and Criticality Analysis surveys

- **Vessel Trials, Inspection and Verification**

- Performing DP for various Class Trials
- Charter Verification, checking and verifying DP suitability
- Pre-Inspection
- On-board, On site DP Training
- Management of DP related documentation

- **Asset Management**

- Maintenance
  - ♦ Maintaining DP systems and Components effectively
- Inventory
  - ♦ Managing Fleet Spares and Inventory can give huge savings and reduce downtime
